

OUR VALUES, OUR OBJECTIVES.

- We are a democratic party of the centre whose aim is to bring people together. We are the people's party committed to making everyone count. Multicultural and diverse.
- We are committed to a social, sustainable and innovative market economy, bringing together the economic, the social and the ecological - in Luxembourg and in Europe.
- We advocate a modern and responsible economic policy that is very close to the concerns of citizens. We stand by our values and think pragmatically in our day-to-day politics.
- We are working for a future we can be proud of, and we are working together for what is precious to us: our environment, our family, our freedom.
